Test case ID	Feature Type	Component	Test Scenario
VerifyURL_TC_001	UI	Browser	verify the user is able to go the website of the application through the given URL.
LoginPage_TC_002	Functional	Home Page	Verify user is able to see the Login/Signup popup when user clicked on My account button
LoginPage_TC_003	UI	Home Page	Verify the UI elements in Login/Signup popup
LoginPage_TC_004	Functional	Home page	Verify user is able to log into application with Valid credentials
LoginPage_TC_005	Functional	Login page	Verify user is able to log into application with InValid credentials

LoginPage_TC_006	Functional	Login page	Verify user is able to log into application with InValid credentials
LoginPage_TC_007	Functional	Login page	Verify user is able to log into application with InValid credentials
HomePage_TC_008	Functional	Home Page	Verify the user is able to go to the predict page after logging in
HomePage_TC_009	Functional	Home Page	Verify the user is able to insert the Image file.
HomePage_TC_010	Functional	Home Page	Verify the user is able to insert any type of pdf file other than Image File
HomePage_TC_011	Functional	Home Page	After clicking Predict button go to predicting page .
HomePage_TC_012	Functional	Home Page	If the Image has multipe digits then the application should predict all these digits.

Date	16-Nov-22	
Team ID	PNT2022TMID37900	
Project Name	Project - A Novel Method for Handwritten Digit Recognition	
Project Name	4 marks	
Pre-Requisite	**Steps To Execute**	**Test Data**
Mobile or Laptop with network connection, Browser, and Application URL	1. Click the URL . 2. Click go.	Website_URL
Mobile or Laptop with network connection, Browser, and Application URL	1.Enter URL and click go 2.Click on My Account dropdown button 3.Verify login/Singup popup displayed or not	Website_URL
Mobile or Laptop with network connection, Browser, and Application URL	1.Enter URL and click go 2.Click on My Account dropdown button 3.Verify login/Singup popup with below UI elements: a.email text box b.password text box c.Login button d.New customer? Create account link e.Last password? Recovery password link	Website_URL
Mobile or Laptop with network connection and Browser.	1.Enter URL and click go 2.Click on My Account dropdown button 3.Enter Valid username/email in Email text box 4.Enter valid password in password text box 5.Click on login button	Username: diya26@gmail.com password: Diya2608#
Mobile or Laptop with network connection and Browser.	1.Enter URL and click go 2.Click on My Account dropdown button 3.Enter InValid username/email in Email text box 4.Enter valid password in password text box 5.Click on login button	Username: diya@gmail password: Diya2608#

Mobile or Laptop with network connection and Browser.	1.Enter URL and click go 2.Click on My Account dropdown button 3.Enter Valid username/email in Email text box 4.Enter Invalid password in password text box 5.Click on login button	Username: diya26@gmail.com password: diya123456
Mobile or Laptop with network connection and Browser.	1.Enter URL and click go. 2.Click on My Account dropdown button 3.Enter InValid username/email in Email text box 4.Enter Invalid password in password text box 5.Click on login button	Username: diya password: 87654321
Mobile or Laptop with network connection, Browser, and Application URL	Click the URL	Webpage_Predict_URL
Mobile or Laptop with network connection and Browser.	1. Go to the Home Page after Login 2. Click on Insert Button. 3. Select the Image file.	Image File
Mobile or Laptop with network connection and Browser.	1. Go to the Home Page after Login 2. Click on Insert Button. 3. Select the Pdf file.	Pdf File
Mobile or Laptop with network connection and Browser.	Click on to next page.	Image File
Mobile or Laptop with network connection and Browser.	1. Insert the image with multiple digit. 2. Click predict button.	Image File (Image containing multiple digits)

Expected Result	Actual Result	Status	Commnets
Reached correct website.	Working as expected	pass	
Login/Signup popup should display	Working as expected	Pass	
Application should show below UI elements: a.email text box b.password text box c.Login button with orange colour d.New customer? Create account link e.Last password? Recovery password link	Working as expected	Pass	
User should navigate to user account homepage	working as expected	pass	
Application should show 'Incorrect email or password ' validation message.	working as expected	pass	

Application should show 'Incorrect email or password ' validation message.	working as expected	pass	
Application should show 'Incorrect email or password ' validation message.	working as expected	pass	
User is able to see the predict page after logging in.	working as expected	pass	
Able to insert the Image File.	Working as expected	Pass	
App should show invalid or incorrect file	Working as expected	Pass	
Application should show the predicted Image.	Working as expected	Pass	
Application should show all the digits in the predicted image.	Working as expected	pass
